

GOUTHAM ACHARYA

Udupi, Karnataka, India | Email: gouthamacharya184@gmail.com | Phone: 7619573468

GitHub/Portfolio: <https://github.com/gouthamacharya184-droid>

OBJECTIVE

Motivated Artificial Intelligence and Machine Learning (AIML) student with strong foundations in Python, Machine Learning, and NLP. Passionate about building real-world AI applications, working with LLMs, and automating workflows. Seeking an AI Intern role to contribute, learn quickly, and deliver impactful solutions.

EDUCATION

Bachelor of Engineering (B.E) in Artificial Intelligence & Machine Learning

3rd Year – Pursuing

Diploma in Mechanical Engineering

Completed

TECHNICAL SKILLS

Programming: Python

Libraries: Pandas, NumPy, Matplotlib, Scikit-learn

AI/ML: Machine Learning fundamentals, model training, data preprocessing

NLP: Text processing, basic NLP techniques

Tools: Jupyter Notebook, Google Colab

Concepts: Data Analysis, LLM basics, Prompt Engineering, API basics

PROJECTS

LLM Hallucination Detection

- Collected responses from multiple LLMs using identical queries
- Stored and managed output in structured excel datasets
- Identified inconsistencies and hallucinated responses
- Designed a basic scoring system to evaluate response accuracy

Data Analysis using Python

- Cleaned and preprocessed datasets using Pandas
- Performed exploratory data analysis (EDA)
- Visualized trends and insights using Matplotlib
- Worked with CSV and Excel data formats

Legal AI Assistant (Chatbot)

- Collected legal responses from Gemini AI using different queries
- Stored and organized data in JSON format
- Analyzed responses to find errors and inconsistencies
- Improved response accuracy using prompt techniques

STRENGTHS

- Strong interest in AI and emerging technologies
- Quick learner with a growth mindset
- Good problem-solving skills
- Ability to work independently and in a team

ADDITIONAL INFORMATION

- Currently learning FastAPI and AI workflow automation
- Exploring real-world applications of LLMs and AI tools
- Applied **RAG** to deliver context-aware AI responses in legal information

CERTIFICATIONS

- Generative AI
- Programming Fundamentals using Python - Part 1
- Programming Fundamentals using Python - Part 2

DECLARATION

I hereby declare that the above information is true to the best of my knowledge.
